The Name You Can Trust

APT International

About:

With Decades of experience, APT International is a global emerging brand that is determined to lead, with solid experience in Product development, manufacturing, distributing, selling, and servicing world class products. We aspire to become a global brand that is trusted by our customers for our tools, accessories, and equipment.

Believing that to build a great tool you need great materials is the driver of our manufacturing process, and for that we source the absolute best raw materials and components to build the most powerful and efficient tool for our customers to rely on.

We put our customers at the heart of everything we do, and we make sure that our wide range of products is available for them in every market we enter through a strong network of central distribution centers, local distributors, and retailers. Complemented with a vast network of service centers equipped with highly qualified technicians delivering a world class customer service quality to ensure our customers complete satisfaction.

Our Values:

Reliability: Our tools are built to last, for our customers to trust that they will consistently deliver the same quality every time.

Quality: We have a passionate commitment to providing high quality tools that exceed our customers' expectations.

Value for Money: Our advanced production capabilities enable us to offer our customers an unmatched combination of reliability, quality & price.

Innovation: We continuously strive to bring innovative solutions, for our customers to have the tools they need to get the job done.

Customer Focus: Our customers are at the heart of everything we do, we listen to their needs and work to deliver what they desire.

HYDRAULIC TROLLEY JACKS

The Name
You Can Trust

HYDRAULIC TROLLEY JACKS

Trolley Jacks

Special Quality Design

Polished and treated cylinder rams use high performance seals.

Polished inner cylinder walls extending the seals' life minimizing abrasion and wear.

Hydraulic trolley jack is constructed with heavy duty steel, providing long term durability with an industrial luster. Equipped with two large steel casters and two 360-degree swivel casters for smooth maneuverability.

Piston for Engine Crane

High quality large diameter hydraulic steel cylinder unit results in lower oil pressure needed to raise the load, helping to reduce wear and extend service life.

Constructed of high-grade steel and built for quality and durability.

Hydraulics are powered with a high quality oil, which offers better corrosion resistance and high/low temperature flexibility.
